1. Introduction

'Housing for All - a New Housing Plan for Ireland' is the government's housing plan to 2030.

It is a multi-annual, multi-billion euro plan which will improve Ireland's housing system and deliver more homes for people with different housing needs.

It is an objective of Kilkenny County Council to create sustainable communities by encouraging housing with the appropriate mix of social and affordable housing.

Kilkenny County Council is seeking to increase the availability of affordable and social housing through various delivery mechanisms including through advance purchase arrangements with home builders and housing developers.

In this call, home builders and housing developers are being asked to consider offering properties with planning permission, where construction of the development or a phase of a development has not yet commenced, to local authorities under an advance purchase turnkey arrangement, with payment on completion, for affordable and social housing purposes.

Please note that the requirements under Part V of the Planning and Development Act 2000 as amended will apply in the normal way to all proposals.

Joint venture arrangements that include an Approved Housing Body will be considered.

2. Affordable Housing Funding (AHF)

2.1 Affordable Purchase

Where appropriate proposals for affordable dwellings are received and considered acceptable, Kilkenny County Council can seek Affordable Housing Funding (AHF) from the Department of Housing, Local Government and Heritage (DHLGH).

The Affordable Housing Fund (AHF) provides Exchequer funding support to local authorities to assist in meeting the cost of delivery of affordable homes via an equity share in the property. The AHF funding is dependent on several criteria and 3 funding limits (i.e. subvention per unit). Please refer to the below table.

Funding Limit Categorisation¹

Scheme density	Funding limit
Dwellings in schemes with a net density of over 50 dwellings per hectare in cities designated under the National Planning Framework	€100,000
Dwellings in schemes with a net density of over 35 dwellings and under 50 dwellings per hectare in all urban areas	€75,000
Dwellings in schemes with a net density of less than 35 dwellings per hectare	€50,000

The AHF funding must achieve a minimum 15% discount on open market values of comparable new build properties for affordable purchase, with the benefit of the applied for AHF funding taken into account.

The calculation of the 15% discount is set out in the below examples.

Example 1

Achieves minimum 15% discount is achieved on open market values of comparable new build properties

Local Authority Affordable Housing	
Cost of Provision (all-in costs) ²	€220,000
Affordable Housing Funding (AHF)	€50,000
Purchaser contribution (i.e. Mortgage and deposit)	€170,000
Open market values of comparable new build	€200,000
Discount 15.00%	€30,000

¹ Depending on the nature of the constraints and the efforts to address this in designing the proposed scheme, account may be taken of the impact of the constraint in calculating the proposal's density and /or scheme layout.

² The all-in cost of the development includes, land costs, construction costs, design fees and other costs such as development levies, utilities, financing costs, sales, marketing, profit etc.

Example 2

Achieves minimum 15% discount is achieved on open market values of comparable new build properties

Local Authority Affordable Housing	
Cost of Provision (all-in costs) ²	€400,000
Affordable Housing Funding (AHF)	€75,000
Purchaser contribution	€325,000
Open market values of comparable new build	€410,000
Discount: 20.73%	€85,000

Example 3

Does not achieve minimum 15% discount is achieved on open market values of comparable new build properties

Local Authority Affordable Housing	
Cost of Provision (all-in costs) ² Cost of Provision (all-in costs) ²	€400,000
Affordable Housing Funding (AHF)	€50,000
Purchaser contribution Purchaser Equity Cost	€350,000
Open market values of comparable new build	€410,000
Discount: 14.63%	€60,000

Preferred areas for the delivery of affordable housing in County Kilkenny are:- Kilkenny City, Ferrybank, Thomastown, Callan, Castlecomer and Graiguenamagh.

All options will be considered but completion of purchases by Kilkenny County Council for Affordable Housing would be dependent on the granting of AHF funding to Kilkenny County Council by the Department of Housing.

2.2 Cost Rental

Cost Rental is a new form of housing tenure in Ireland. Cost rental offers a long-term, secure tenancy to those who don't qualify for social housing - with rents based on the cost of housing provision (i.e. not for profit). Cost rental homes must achieve a reduction of at least 25% on open market rental values. Any properties being considered by Kilkenny County Council under this call for the new cost rental tenure arrangements will need to ultimately deliver a minimum of 25% discount on open market rents.

The preferred method of delivering cost rental in County Kilkenny will be in partnership with an AHB.

It is a requirement of AHF funding eligibility that a minimum 25% discount on open market rents of comparable properties for Cost Rental proposals with the benefit of the applied AHF funding taken into account.
