DESCRIPTION

- **Landscape Type**: Undeveloped open space on fringe of city centre
- **Facilities**: None
- **Effectiveness**: Moderate accessibility and usage. Low contribution to city form
- **Safety**: Moderate enclosure (low wall). Not overlooked. No anti-social indicators

QUALITATIVE ANALYSIS

- Low visual amenity, low management and function. High definition of boundaries.

POTENTIAL AND OPPORTUNITY

- Potential for ‘local’ open space. Improve visual amenity by tree planting. Increase usage by seating, footpaths, lighting and play area. Management policy by local authority should be implemented.
- Local open space
- Improve visual amenity
- Redesign and reconstruct
